## FutureCare

2019

*New Cardiovascular  
Operating Rooms*

2020

*New Childbirth  
Center*

2022

*New Mental Health  
Unit*

## 60 years of service, and counting!

Back in 1960, caring community members much like you founded Overlake. They wanted to ensure that people on the Eastside had hospital care nearby to meet the healthcare needs of the rapidly growing area. Sixty years later, the Eastside has grown larger than they could have imagined, and Overlake has grown alongside it. Our generous community has been with us every step of the way, and your philanthropic contributions have brought world-class medicine to your families, friends and neighbors. We couldn't have done it without it. Thank you.

If you have been by Overlake in the last year, you've seen us growing before your eyes. The new building on the corner of NE 110th St and 116th Ave NE will be a state-of-the-art facility housing our beautiful new Childbirth Center and two floors of patient rooms that will both increase the comfort of our patients and families and leverage the latest technologies in patient care. The new building is part of Project FutureCare, a \$250 million project aimed at modernizing our campus in preparation for the next 60 years of service. Your donations play a vital role in this transformation, and you've already contributed over \$32 million of our \$50 million goal.

Harder to see from the road but no less important are Project FutureCare's two new cardiovascular operating rooms. These facilities, which opened in the fall of 2019, have been optimized for the high-tech, minimally invasive procedures of the present and future as well as the gold-standard open-heart surgeries. The addition of the new operating rooms, now called the Bob and Patty Edwards Cardiac Operating Suite, greatly increases our capacity to care for the hearts of the Eastside. Still to come: an upgraded inpatient mental health unit, the demolition of the old East Tower, and a new front entrance that welcomes visitors and connects our campus together.

## We want to hear from you!

Contact the Overlake Foundation about supporting world-class care, close to home.

# Overlake *by the Numbers*

FISCAL YEAR 2019

1,404

Total number of donors

390

Number who joined the Circle of Excellence by giving \$1,000 or more

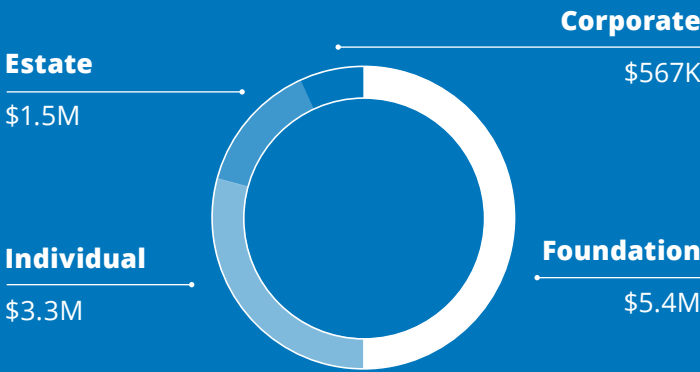

396

Total number of first-time donors

\$10,845,019

Total amount donated

2,491

Number of patients who received full or partial financial assistance with their medical costs

\$16 million

Financial assistance provided to patients

## OBaby Digital App

Our new Childbirth Center is still under construction, but innovative work with Eastside moms and babies happens continuously. In 2019, we launched a new app, OBaby, which puts trustworthy information at the fingertips of our expectant moms. App users can keep track of milestones, learn about pregnancy symptoms and keep a log of their baby's movement. After the birth, moms can use the app to track growth, feeding, diapers and vaccinations.

## Feel the Beat

Atrial fibrillation and other irregular heart rhythms are dangerous conditions that may lead to strokes and other life-threatening medical events. Many arrhythmias can be treated with minimally invasive procedures in which a doctor who specializes in electrophysiology threads a catheter into the heart and applies heat or cold. In collaboration with our partners at EvergreenHealth, Overlake's electrophysiology program has expanded the number of procedures we offer and doubled the patients we serve—from 600 to more than 900 per year.

## Honoring Choices

Who will make healthcare decisions for you if you can't? That is the central question underlying advance care planning, a process that ensures your wishes will be known and respected should you become incapacitated and unable to direct your own care. Overlake encourages all adults, age 18 and over, to think through the kind of care they would want if an accident or a serious illness left them unable to communicate.

In 2019, Overlake began offering advance care planning services through individual meetings and group classes and workshops. Participants have the peace of mind of knowing that they will receive the care they need and want, should the time come.

## Advanced Stroke Center Certification

Strokes are the fifth leading cause of death in the United States. If you have a stroke, it is critically important to receive expert care as soon as possible to survive and minimize the damage. In 2019, Overlake earned certification as a Thrombectomy-Capable Stroke Center. During a stroke, a patient loses 1.9 million brain cells per minute, meaning that timely treatment results in better patient outcomes. In a thrombectomy, an endovascular surgeon physically removes the blood clot causing the stroke, which restores blood flow to the brain. This advanced technique allows a significantly higher rate of recovery than other treatments.

## Rave Reviews from the Experts

The safety and well-being of patients is of paramount importance, and with your help, Overlake has established an outstanding record. In 2019:

- The Leapfrog Group, an independent rating agency, awarded Overlake an "A" grade for patient safety in 14 of the last 15 rating periods.
- The Collaborative Alliance for Nursing Outcomes recognized Overlake for Best Performance in preventing infections.
- The American Heart and American Stroke Associations awarded Overlake the Stroke Gold Plus Quality Achievement Award for the 10th year in a row.
- The National Committee for Quality Assurance awarded Overlake's primary care clinics and senior health clinic the Patient Centered Medical Home certification.
- Overlake is the region's only hospital to be fully accredited by all three governing bodies for cancer care: the American College of Surgeons-Commission on Cancer; the National Accreditation Program for Breast Centers; and the American College of Radiation Oncology.

# Overlake Medical Center extends our deepest gratitude to the individuals, corporations and foundations that generously supported our mission in fiscal year 2019.

*Thank you.*
